

ALCHEMY SMART ALPHA MICRO & SMALL CAP

Unlocking Hidden Gems in India's Small Cap Market

April 2026

Alchemy Smart Alpha Micro & Small cap is one of the Portfolio Management Services products managed by M/s Alchemy Capital Management Pvt. Ltd., a SEBI registered Portfolio Manager. Until May 29, 2025, the Investment Approach name was Alchemy Smart Alpha Small & Micro cap.

Alchemy Smart Alpha Micro and Small cap strategy aims to uncover the hidden gems within India's dynamic Small and Micro cap market, where growth opportunities may abound for discerning investors. A unique Quant and Active management style meticulously researches and analyses companies with strong fundamentals, compelling growth prospects, and solid management teams.

WHY MICRO AND SMALLCAP STRATEGY?

India is a land of a billion opportunities and a long runway of growth.

This growth gets better captured in riding the journey of successful companies morphing from micro to small to mid to large. This whole journey has potential to create lot of wealth/returns.

Over the last 10 years, while Nifty 50 TRI has delivered 14.3% CAGR, the comparative number for Nifty SmallCap 250 TRI is 19.9%.*

Active Management: We actively monitor and manage our portfolio to capitalize on emerging trends and swiftly adapt to market dynamics.

PORTFOLIO CONSTRUCTION PROCESS

**Usually portfolio consists of 25 stocks but it may go upto 50.*

OUR PROPRIETARY FRAMEWORK

eQGP - Environment

The philosophy of the product is to get aggressive in a risk-on environment and defensive in a risk-off environment. Our rating band on the environment is based of multiple factors. Few of them are:

- Liquidity conditions in the market
- Interest rate conditions in the market
- Improving or deteriorating macro growth
- Improving or deteriorating macro balance sheet
- Price action parameters in multiple sections of the market
- Trends in corporate profits
- Currency situation
- Policy level support

eQGP - Quality

The quality of a business comes from multiple attributes. The higher the number of these attributes in favour, the higher the quality. Our quality rating band is based of multiple factors. Few of them are :

- Capital efficiency - absolute & relative
- Leverage ratios - absolute & relative
- EVA generation track record
- OCF generation track record
- Consistency in profit generation
- FCF track record
- Credit rating
- Management quality

eQGP - Growth

All good things in the company need to culminate into business growth. Our growth rating band is based of multiple factors. Few of them are:

- Profit growth - absolute and relative
- Operating efficiency - absolute and relative
- Business growth
- Market share gains
- Consistency of growth

eQGP - Price Action

Returns come from price action and movement. Our price action rating band is based of multiple factors. Few of them are:

- Tailwinds in the price behaviour - absolute and relative
- Ownership trends
- Consistency of outperformance
- Liquidity
- Risk reward potential

KEY FUND TERMS

Objective: To generate long term risk adjusted returns.

Philosophy & Strategy:** A High-Risk High Return oriented strategy which aims at generating long term alpha consistently by investing predominantly in small cap & microcap companies. The investment philosophy follows Growth at Reasonable Price/ Premium (GARP) approach with a blend of quant and active management.

Risk associated with Product/Investment approach^^: High Risk

Description of types of securities: Equity (primarily) and other permissible securities

Basis of selection of types of Securities as part of the Product/ Investment Approach: Equity stocks are chosen for investment on the basis of following factors: 1. The company fundamentals, as reflected in reported numbers.

2. Investment strategy research regarding various market cycles. 3. Risk & Reward ratios.

Deployment of funds in other securities: In addition to the above, the Portfolio Manager, considering the market conditions and investment opportunities, may deploy funds in permissible securities other than equity.

Allocation of Portfolio across types of Securities: Upto 100% in equity. The Portfolio may also invest though not exceeding 10% of the Asset Under Management (AUM) in securities other than equity, which shall inter alia include Real Estate Investment Trusts ("REITs"), Infrastructure Investment Trusts ("InvITs"), commodity-linked ETFs (e.g., gold, silver, crude), debt, liquid funds, bonds and permissible securities under the applicable laws.

For the avoidance of doubt, the aforesaid limit of 10% shall be maintained at the time of making investments (whether initial or additional).

It is clarified that any subsequent variation in the percentage of such investments beyond the aforesaid limit, arising solely on account of (i) market movements, (ii) corporate actions, or (iii) client-driven transactions like partial redemptions by Clients, shall not be construed as a breach of this limit ("Passive Breach").

However, if such Passive Breach results in the exposure to the aforesaid securities exceeding 20% of the AUM at any time, the Portfolio Manager shall, on a best-efforts basis and subject to market conditions and liquidity, take necessary corrective actions to bring such exposure within the said limit of 20% of AUM within a period of thirty (30) days from the date of such breach.

Portfolio Construct: A typical Portfolio may generally consist of upto 50 stocks across sectors.

Benchmark: Primary: BSE 500 TRI Secondary: Nifty Smallcap 250 TRI

Basis for choice of benchmark: Given that the investment approach is categorized under the 'Equity' strategy, the benchmark has been selected in accordance with APMI Circular APMI/2022-23/02 dated March 23, 2023 and SEBI circular dated October 3, 2024.

Investment horizon: 3 to 5 years

Fund Manager: Alok Agarwal
