

ALCHEMY SELECT STOCK

Investment Objective**

To generate long-term returns by investing in equities and equity related instruments, across all market capitalizations.

Combination of top-down & bottom-up stock picking and High Conviction

A demonstrable long-term track record of finding winners with a deep understanding of the businesses and the drivers of long-term sustainable performance in companies, which may then translate into long-term return performance.

Over diversification dilutes returns

A well-diversified portfolio is essential to capture a wide variety of businesses; too much diversification tends to dilute returns. A concentrated portfolio helps to focus more on individual stock performance and returns.

A differentiated strategy for UHNI, Family Offices & Large allocators

A slice of the capital allocated to a concentrated strategy makes eminent sense as the investors are already diversified, and a differentiated strategy can help generate differentiated returns.

ALCHEMY SELECT STOCK (SS)* - PRODUCT HIGHLIGHTS

- Philosophy: The philosophy behind growth investing is based on the assumption that India is a high growth economy with a strong entrepreneurial culture. Our endeavor is to identify and invest in growth companies through a combination of top-down and bottom up fundamental research to enable long term wealth creation. A typical Portfolio generally consists of between 8-14 stocks across sectors. We may construct such concentrated portfolios as per the clients need and understanding.
- Strategy**: Invest in companies across the market capitalization range, which have high growth potential and potential to deliver long-term capital appreciation.
- Fund Manager: Hiren Ved
- Description of types of securities: Equity | Investment horizon: 3 to 5 Years
- Risk associated with Product/Investment approach^^: High Risk
- Allocation of Portfolio across types of securities: Upto 100% in equity(cash portion may be deployed in liquid funds/ debt securities).
- Allocation across Market Cap: Since portfolio is concentrated, focus is more on stock selection than on market cap allocation.

^{*}Inception Date: Dec 19, 2008

ALCHEMY SELECT STOCK – PRODUCT HIGHLIGHTS

- Basis of selection of types of securities as part of the Product/Investment Approach:
- 1. Relevant Universe: We have identified a relevant universe of about 500 companies based on market capitalisation (above 1,000 crores preferably), qualitative governance filters, long term attractiveness and ROE profile of business amongst other parameters.
- 2. Investible Universe: From this relevant universe, an investible universe of companies is created based on assessment of past and future fundamental variables like revenue and EBIDTA growth, cash flow conversion efficiency and core ROE of the business amongst several other relevant variables which may be unique to a business. In addition to objective fundamental parameters and assessment of qualitative management capabilities, governance standards and competitive ability of the business is also carried out. A comprehensive valuation exercise is also carried out based on one and/or combination of valuation parameters like P/E, P/B, EV/EBIDTA, DCF etc to arrive at an acceptable valuation range for investing in the security.
- 3. Portfolio Construction: The Portfolio Manager managing the strategy is then free to construct the Clients Portfolio from within the investible universe at its discretion.
