ALCHEMY'S INVESTMENT PHILOSOPHY

Robust Financial Metrics

We like businesses which address large and growing external opportunities, have a competitive advantage in effectively exploiting those opportunities and have a scalable business model with higher-than-average Return on Capital Employed (ROCE) over the investment horizon.

Strong Growth Fundamentals

While growth companies form the core of our portfolio, we also tactically invest in deep value opportunities and special situations that may appear due to and during market cycles.

Exceptional Management Teams

We believe that management teams are key to business success. We look for managements which have aggression, are aligned to business outcomes while simultaneously having respect for governance and capital allocation.

KEY FUND TERMS^{##}

Investment Objective^{**}

To generate long-term returns by investing in equities and equity related instruments, across all market capitalizations

Philosophy^{**}

The philosophy behind growth investing is based on the assumption that India is a high growth economy with a strong entrepreneurial culture. Our endeavour is to identify and invest in growth companies through a combination of top-down and bottom up fundamental research to enable long term wealth creation. A typical Portfolio generally consists of between 8-14 stocks across sectors. We may construct such concentrated portfolios as per the clients need and understanding.

Strategy^{**}

Invest in companies across the market capitalization range, which have high growth potential and potential to deliver long-term capital appreciation.
